A real Guarantee

To be more than a mere "scrap of paper," a guarantee must be absolute—and backed by a concern able and willing to make it good.

The General's guarantee is not only absolute; it is backed by a business operating the world's largest roofing mills, and making one-third of all the roll roofing made in America. That's the guarantee behind

Certain-teed Roofing

The guarantee is for 5, 10 or 15 years, according to ply (1, 2 or 3). There is no reason about it—no attempt to substitute a high-sounding something "just as good." There is no substitute for a real guarantee. You get an absolute guarantee on CERTAIN-TEED because the General knows that no better roofing can be made. For new materials and method of manufacture are both controlled by the General's board of graduate chemists, and he knows he's taking no chance in guaranteeing them to you. That's what "CERTAIN-TEED" means—*proved and guaranteed*. Experience has proven that the guarantee is conservative, and that CERTAIN-TEED will outlast the period of guarantee.

The roofing felt, which comes down from the rollers, is given a thorough saturation of a special blend of soft asphalt, the formula

of the General's board of expert chemists. It is then given a harder coating of another blend of asphalt. This keeps the inner saturation soft, and prevents the drying-out process so destructive to ordinary roofing. Roofing is impervious to the elements only so long as the asphalt saturation lasts. CERTAIN-TEED retains its soft saturation, and is in good condition for years after the harder, drier kinds have become useless.

CERTAIN-TEED is made in rolls, also in slate covers, shingles. There is a type of CERTAIN-TEED for every kind of building, with that in mind, from the largest skyscraper in the largest residence or out-building.

CERTAIN-TEED is sold by responsible dealers all over the world, at reasonable prices. Investigate before you make an any type of roof.

H. LOTT GETS FIVE YEARS

In the case of the State of Texas vs. H. Lott, in which the defendant is charged by indictment with murder by abortion, the jury returned a verdict of "guilty" and announced his punishment at five years in the penitentiary. Motion for rehearing will doubtless be filed by attorneys for the defendant.

This case has been occupying the attention of the court during the past two weeks having been called May 7, and the verdict was returned on Monday forenoon May 14 by the jury. Five attorneys were engaged in the trial of the case for each side, and there was some very hotly waged legal contest in Amarillo.

Upon the out of the death of Miss Lott's child in Amarillo during last August, the case has been the cause for considerable comment in certain circles, and the trial attracted a liberally sized audience throughout. Approximately fifty witnesses were examined.

DAMON AND PYTHIAS

TUESDAY NIGHT

One of the most delightful and impressive events of the season at the Grand Opera House, will be production of "Damon and Pythias" which Mrs. Stewart is arranging under the auspices of the local lodge at 9 1/2 of P. M. for Tuesday night May 16.

But little advance notice has been given of this, as it was not until the last week that it was known that arrangements could be made to handle a complete production of this play, as Mrs. Stewart demanded. After closing her winter season in the west, she has a few weeks rest before filling a number of engagements in open air for Wichita, Kansas, Springfield, Mo. and on further west where she plays one week for the grand R. of P. entertainment at Nashville, Tenn. In the production to be given here, the leading parts will be given here by Mrs. Stewart, Miss Turner and Franklyn, Nashville, Tenn. leading men. Mrs. Stewart has retained from her company of the past season, will give "Damon and Pythias," the same roles they will play for her in Nashville.

Mrs. Stewart will give Calcutta, London, London, and the other parts have been drafted from the best amateur talent of the city. The scenery and costumes used in this production will be very elaborate, while every kind of an elaborate and wonderful forces that can possibly be used will be used themselves of the opportunity of seeing this successful production, there will be more than 100 of the best seats at various prices, which will be for everybody, and these are going very rapidly.
